

Young People Rise
by Rev. Dr. Deborah Tanksley-Brown

Young people rise!
Raise your sights to the skies.
This country needs your new eyes,
so the “dream” can be realized.

Young people rise!
Help is needed to neutralize the infectious insanity
That has polarized this society.

Young people rise!
Be recognized for putting a pause in the demise and
advancing the righteous cause.

Young people rise!
This is your time to make a shift in the scope of the paradigm
and climb the mountain top to raise your hands in the air to show how much
you care for a future that envelopes hope 🙏
