HOUSE ELVES CLEANING

As soon as I could stand, my parents instilled in me the joys of cleaning. By 10 I was scrubbing toilets and by 14 I was mowing the lawn. By 16 I started my own cleaning business for my mom and all of her friends. From there I went to work in the restaurant industry for 6 years at some of the best restaurants in Philadelphia as a line cook and eventually sous chef. I am 24 years old and the lessons I learned from those early days of hustling have followed me throughout my career. I work hard, I show up on time, and I never rest until the job is done. I can provide references upon request. No kitchen is too dirty and no laundry pile is too high! Cleaning brings me joy and I would love to share it with you!
